Sunday, April 26th Adrian Incledon-Webber:

Healing with Sacred Symbols

Adrian's qualifications are very impressive. Member and former Chair of the Earth Energies group, British Society of Dowsers (BSD) and member of the Health Dowsing group in the BSD.

Also, he's from the Yorkshire Dales, which, as we know abounds with archaeology. Like many of our speakers he has a story of spiritual 'awakening'.

Twenty years ago he travelled to India to learn more about Buddhism; then he became acquainted with Jane Roberts and the 'Seth Speaks' series of channellings in the 1980's. Here he learnt about the phenomenon of 'orbs', 'highly charged psychic particles including physical objects that have strong characteristics of attraction and expansion'. From learning about these and the theories of 'intending' what you want to come into your life, he was then interested to discover more.

During his subsequent journeyings and experiences he learnt that many religions use sacred symbols, in either healing and/or ceremonies. These include Indian and Tibetan mandalas, Japanese Reiki, Mayan pictograms, Egyptian hieroglyphics, the Hebrew Kabbalah including the 72 names of God, the latter, all sacred and secret for thousands of years.

The Freemasons have their own symbology of a square and compass and those that are familiar with

Drunvalo Melchizedek's, Flower of Life books 1 and 2, will be well up on Sacred Geometry including the Vesica Pisces and the labyrinths at Chartres and other places in the world.

Most mystical sects, religions, cults etc use a certain set of symbols for healing but Adrian, decided

to make up a set of symbols that incorporated several different traditions. He selected these through dowsing and similarly, he dowses before utilising these symbols with his clients for health or in house healing sessions.

Adrian had brought several sets of symbols with him and he encouraged us to dowse for the one that would be most useful at that time. Intent is very important with any form of healing and using symbols personally applicable to us, serves to anchor it.

It's not possible to go into all the qualities of the symbols we used here but perhaps a well-known one would be the Antahkarana symbol, long used in Tibetan practices and also will be recognised by Reiki healers: It interacts directly with your aura and your chakras; and it knows how to vary its healing effect according to what you need at the time of use.

As a healing tool, it helps to release energy within a Taoist microcosmic orbit, in the process creating an energy flow up the main channel of the body and down the functional channel. This energy flow has a grounding and cleansing effect

on the body; and as it activates the chakras, it heals the organs associated with each of the chakras.

Spiritual energies travel up the spine, over the crown chakra, and down through the front of the body to the root chakra and back up again, continuously moving around and around. This flow of energy balances the chakras and prevents excessive build-up of energy in any of the chakras.

The effect is often invigorating, adding a noticeable boost to one's vitality. Here, it is the effect of the symbol on the human chakras that bring about healing and a growth spurt of vitality. You can place this symbol (or any other symbol you have dowsed to be right for you at this time) in a circle on a piece of paper and then a glass of water on another circle and then 'intend' the symbol's healing power to go into the glass of water.

Adrian showed us how to use these symbols wherever we dowsed any negative energies around our homes. As a really effective example, Adrian dowsed for a symbol to place on the negative energy line in the Hall, then dowsed the strength of the negativity. We were amazed to see that the line had become much more positive until the symbol was removed.

This is our second talk by Adrian and once again he did not disappoint. If you would like a set of the symbols, please let us know. (There may be a small charge Ed) Adrian has also written a book called 'Heal Your Home' which can either be purchased on paper or digitally.

Sunday, May 24th: Robert Nurayon-Taylor, Numerology with Practical Work applicable to you!

Robert also started with his own process of 'awakening'. Being a Botanist by training, he found it hard to find a scientific and rational explanation for some of the strange things that had been happening to him. These included his hand being taken by some 'unknown power' whilst he was writing his diary.

He then travelled to Thailand to learn more about Buddhism by living in a monastery and learning how to meditate. Following this and other strange happenings he decided he had to get away from scientific pursuits, to follow another and perhaps more mystical path.

He dabbled in astrology for a while but found it hard to remember the order of the symbols. Later, he started to notice the numbers in his birthdate all over the place. When he meditated on this, it was as if a 'dam had burst' and lots of information started to come through on the actual meaning of numbers:

0 = Nothing, the great paradox, the void, the monad, the sun, male energy, day, light

1 = The primal force, Negative, Moon, unbalanced, move forward on a journey of discovery. Leader, energy is unstable has to find a balance. Homo Sapiens

2 = Duality, dependence, couples energy, parents, male and female or sexual relationship which may lead to one more

3 = child energy, starts to challenge the stability of two, or act as a challenge to you. Makes up the divine triangle, holy trinity, magic, good fortune

4 = community, tradition, conservatism, stability, a couple with two children

5 = True love, marriage, Christ energy, evolution (evol is love in reverse) past doesn't matter, future hasn't arrived, faith, understanding, belief

6 = most difficult of all numbers, looking back, questioning, re-aligning, re-ordering. Life you've LIVED or in reverse DEVIL – (not a person) be-devilled by holding on to past, dependent on what has happened, what has been. LIVED – past is behind you, change in which you view things now. Beauty, art, music, on your deathbed craving wanting. Start to understand what has happened, take a chance, work with the memory, forgive and move forward. You've made mistakes but you need to forgive and move on

7 = Magic number, 7th tone, musical note jumps forward – not straightforward, spiral energies in nature. Also means Oak, sacred vegetation of the Celts, magic comes into your life and works with you, perfection, security, rest

8 = most beautiful number but also the most difficult, back to back 3's therefore very challenging, vertically represents the vesica Piscis, the all seeing eye in the middle, heaven on top and earth at the bottom, in Chinese – heaven has come down to earth. Horizontally it is the infinity symbol, spider energy can be trapped with nowhere to go, can't find a way out. Past, phase gone through, childhood, orthodoxy, fight, trapped

9 = Power of the weak in the I-Ching, 'bend with the winds of change', reversed 6, gateway, ending of life, last 0 – 9. 3x3 all possibilities, completion, wisdom, good leadership, work out your 'stuff', angelic, move on

10 = 0 energy is supported by 1 Loss of Ego, vibrational energy, self – overcoming of self, ego, energy of you, temporary formation of energies will pass, nothing supported to coming two own conclusions

11 = Conducive enough to attract Soul mate energy, solid potential, succeeded,

13 = Good fortune, individual takes on a challenge – do it

22 = very balanced, conventional, powerful relationship equal beings to work with you on male / female roles, yourself at risk for others

33 = 3 is a challenge, the challenges are doubled

44 = realistic, pragmatic, efficient, disciplined, and confident. It is conscientious, balanced, and methodical with a focus on what it wants to accomplish.

55 = outward looking, forward looking, and both desires and anticipates new experience and new learning. It is adventurous, self-sufficient, and rather enjoys going it alone.

66 = imagination, acceptance, optimism, and joy. It's an effective communicator, tolerant, and dynamic.

77 = adept with mental processes, mind of a scientific investigator, mercurial

88 = Business building and wealth accumulation, the ability to look inward for reliable and accurate answers, an appreciation of quality, and a sense of fairness.

99 = creative, tolerant, and compassionate, intent on doing the world some good. It is both self-sufficient and self-sacrificing for progress toward the fulfilment of its vision.

100 = Success, great expectations. Odd numbers are masculine. Even numbers are feminine. Not meaning 'man' or 'woman' but the masculine and feminine energy within us all. Also, day or night, light or dark.

'We then completed the grid system below using A=1, B=2 to Z=26.

PAST	PERSONALITY Christian Name	PATHWAY Middle Name or leave as 0. Two more middle names add up here.	PURPOSE Surname	POWER Add all to single figure (doubles or trebles etc see above)
PRESENT	Date of Birth	Day of Birth	Year of Birth	Add up to a single figure.
POTENTIAL	Add all above to single figure	Add all above to single figure	Add all above to single figure	Add all above and all across. It should be the same figure = Destiny number

This grid is very clever in that you can look at a lot of aspects of your life, past or present that could be hindering or helping you and also discover what is likely to help you in the future. (*Robert is available for numerology readings and I can vouch as to how absolutely fascinating they are – Ed*)

Sunday, September June 28th, Dr Penny Sartori

– *The Wisdom of the Near Death Experience Author of the book of the same name*

Penny worked as a nurse for 21 years, 17 of those in the Intensive Care ward of Morriston hospital. Early in her career she started to question why people had to endure prolonged suffering at the end of their lives.

Early in her career, a connection she made with a dying patient totally changed her life. Later she conducted unique and extensive research into the near-death experiences (NDEs) of her patients. In 2005 she was awarded a PhD for her research into NDEs.

Case Study: In 2009 I had a heart attack and cardiac arrest at the age of 44. There were many times before, when I was in hospital that I'd feel sick or dizzy and have chest pain. Once in work it happened and I woke up in the cold store with a cut on my head and bad chest pain.

When I was in the hospital ward my aunt was visiting me, the next thing I knew I woke up in CCU. Another time I was talking to the doctor and she said 'are you ok?' I said yes but there were colours in front of

my eyes. I must have been out for a while because I came to with the doctor standing over me asking if I was still there. I have no idea what happened in between me losing consciousness and waking up. I have an ICD (Implantable Cardioverter Defibrillator) pacemaker now.

The day I had the cardiac arrest I was lying in the hospital bed and my wife was visiting then the nurses said to my wife I think you'd better go outside for a few minutes.

All of a sudden I was in a long dark tunnel with voices all around and people calling me. I was just floating down and I could hear voices around me. There was a man at the end of the tunnel calling me. He was a dark figure but I knew he was friendly – it may have been my grandfather. He was calling me towards him.

Next thing I could see the doctor in front of me – I could just see his eyes and teeth and he said to the nurses, 'it's ok, he's back'.

There is much more to this story and there are many other case studies

but unfortunately space has stopped me including more. For more information go to Penny's website: <http://www.drpennysartori.com> or there is an excellent video on You Tube with Penny talking to Dr Anthony Peake: www.youtube.com/watch?v=MwXQaRwqUpk

Penny is very concerned that people having these experiences are not supported professionally, when in fact some of their experiences may be confusing or even frightening! She is now working with Swansea University to look into how this can be done.
